

# IsatPhone

## Mobile satellite phone

IsatPhone is Inmarsat's new mobile satellite phone service, providing a simple, highly affordable way of staying in touch.

Robust, compact and competitively priced, IsatPhone is ideal for business travellers and personal users who travel or work in areas where local networks are unreliable or non-existent.

- Lightweight, pocket-size handset
- Rugged design
- Competitively priced
- Dual mode satellite / GSM 900 mobile phone
- Easy to use, icon-driven menu
- For use in Asia, Africa and the Middle East
- Full range of accessories

Inmarsat is the world's leading provider of global mobile satellite communications delivering voice and data services almost anywhere on the planet through the most versatile and reliable satellite network in the world.

TC Communications is one of the biggest ISP's (Inmarsat Service Provider) in Australasia so you can be assured that you will be provided with very competitive airtime rate.

# Coverage

## Key

 Current Service coverage

 I4 Satellite F1

The map depicts Inmarsat's expectations of coverage, but does not represent a guarantee of service. The availability of service at the edge of coverage fluctuates depending on various conditions.

\* National regulatory conditions apply for land-based services.
